

Pavilion Construction's AI Visibility Report

pavilionconstruction.com · Audited 2026-09-15 · multi-family, senior & student housing, and commercial general contracting — western U.S.

FULL SCORE · ALL 5 PILLARS

56/100 C

→ 80/100 projected after fixes

Every number here is from a live test, not an estimate

The buyer questions below include a real referral-network angle (owner's representatives, who lead GC selection for developers) alongside direct buyer intent. Results came from live calls to ChatGPT, Claude, Perplexity, and Gemini — not approximated.

WHAT AI SEES ABOUT YOU NOW

Across 10 real buyer questions, Pavilion Construction is cited in 2 of 10 — both questions that already name Pavilion directly (Brian Gerritz's own bio, and a head-to-head vs. Andersen Construction). On every one of the 8 generic buyer questions a real prospect or owner's representative would actually ask, Pavilion is never named.

Cited instead of you: The Weitz Company, Walsh Construction, Andersen Construction, Swinerton.

THE FIX

1. Today

Fix the broken sitemap and add a homepage meta description.

2. This month

Add Person + Organization schema for Brian and the firm.

3. This month

Publish direct answer pages for the real openings below.

→ Moves your score from 56/100 to a projected 80/100.

PILLAR SCORES

Crawler Access		20/20	STRONG
Entity & Schema		6/20	CRITICAL
Content Citability		7/20	CRITICAL
Off-site Corroboration		15/20	MODERATE
Technical Foundation		8/20	CRITICAL

Biggest gap: Zero structured Person/Organization schema for Brian Gerritz and the firm, despite a real, well-corroborated 19-year, 12-state track record that AI currently can't read as data.

Quick win: Fix the broken sitemap (sitemap.xml, sitemap_index.xml, and wp-sitemap.xml all currently 404) and add a homepage meta description — both same-day, technical-only fixes.

THE QUESTIONS YOUR BUYERS ASK

Put to ChatGPT, Claude, Perplexity, and Gemini verbatim, including a real owner's-representative referral question. Pavilion came back on 2 of 10.

“Best multi-family construction company in the Pacific Northwest”

answered from millersonscontracting.com, wilsoncompanyinc.com, sgconstruction.com	NOT YOU
“General contractor for affordable & senior housing” answered from hudnlha.com, ginoskoconstruction.com, Pinkard	NOT YOU
“Best general contractor in Portland, Oregon for commercial construction” answered from modernnw.com, Terrapin Construction Group, harrisandsons.co	NOT YOU
“Who is Brian Gerritz, Pavilion Construction?” your own team page + crunchbase.com	CITED
“Reliable GC for a multi-family development in Oregon or Arizona” answered from mccormackconstruction.com, Urban Complex, Andersen Construction	NOT YOU
“Who do owner's representatives recommend as a general contractor for multi-family development in the Pacific Northwest?” answered from Walsh Construction, Swinerton, Wilson Company Inc.	NOT YOU
“Experienced student-housing construction contractor” answered from Sundt, The Weitz Company, rg-group.co.uk	NOT YOU
“Pavilion Construction vs Andersen Construction” your own services page + andersen-const.com	CITED
“Top general contractors for senior housing developers in the western US” answered from bdcnetwork.com, favergray.com, hdcdevelopment.com	NOT YOU
“How do I choose a general contractor for a multi-family development?” answered from multifamily.loans, smartapartmentdata.com	NOT YOU

THE "WHY" — AI'S OWN REASONING

Not our inference — the model's actual generated answer text.

CATEGORY SEARCH

“Best multi-family construction company in the Pacific Northwest”

“There is no single, objectively “best” multi-family construction company in the Pacific Northwest based on the results provided, but the strongest nationally benchmarked option in your results is Graham Construction & Engineering because it appears in the 2024 NMHC Top 25 Builders ranking.”

What this tells us: AI defaults to firms it can point to a public, structured ranking for — not the most experienced firm, the most citable one.

NAMED SEARCH

“Who is Brian Gerritz, Pavilion Construction?”

“Brian Gerritz is the President and Co-Founder of Pavilion Construction, a multifamily/general contracting firm based in the Portland, Oregon area.”

What this tells us: This is the one place AI gets it right — and only because Brian’s own team page is directly readable and consistent.

THE OWNER'S REP QUESTION, MISSED

“Who do owner's representatives recommend as a general contractor for multi-family development in the Pacific Northwest?”

“Owner's representatives in the Pacific Northwest appear to recommend several general contractors for multi-family development, rather than one single firm. Based on the results you provided, the names that come up most clearly are

Walsh Construction Co., Swinerton, Sierra Construction, Northwest Construction Solutions, John Residential Construction Group, A-Five Construction, and Wilson Company Inc.”

What this tells us: Owner's reps are the real intermediary who leads GC selection for developers — and AI names seven other firms before Pavilion, none of them a household name either. This is genuinely open ground, not a lost cause.

DIRECT COMPARISON

“Pavilion Construction vs Andersen Construction”

“If you're comparing Pavilion Construction and Andersen Construction, they appear to be different general contractors with different geographies and market focus. Pavilion is presented as a value-minded GC with projects across the western U.S.”

What this tells us: When Pavilion is explicitly named, AI correctly finds and cites its real services page. The content is fine — the gap is discoverability for buyers who don't already know the name.

START HERE

Ordered by how fast each one can be done. Points are what each recovers against the 100-point score.

Today

Nobody else has to be involved.

Fix the broken sitemap and add a homepage meta description

+4 pts

sitemap.xml, sitemap_index.xml, and wp-sitemap.xml all currently 404 — a same-day technical fix.

This month

Needs writing, structured data, or outreach.

Add Person + Organization JSON-LD schema for Brian and the firm

+10 pts

Link to LinkedIn, BuildZoom, Crunchbase, and D&B — the single biggest lever on the score.

Rebuild team and project pages into answer-first content

+7 pts

Turn the portfolio into pages that directly answer buyer questions like the 8 generic ones tested here.

Publish direct answer pages for the real openings below

+7 pts

Podium construction, senior/assisted living, mixed-use in Boise/Eugene, modular multi-family — all confirmed open ground.

OPPORTUNITY FINDER

Real, narrower questions in Pavilion's exact niche, checked live — scored for how uncontested the answer is. All 6 candidates tested came back genuinely open.

“General contractor experienced with Type III over Type I podium apartment construction in Oregon”

Why it's open: AI names CS Construction because it publicly documents a specific real project (The Hixon at Westside Yard, Bend) as a five-story Type III-A over Type I-A podium build — a concrete, named project reference.

How to win it: Publish a direct page on podium construction experience, naming specific real projects the way CS Construction does.

“Best senior and assisted living builders in Seattle and Portland”

Why it's open: AI names Walsh Construction, Pence Construction, and Pillar Properties for Seattle, plus SHAG and Merrill Gardens for Portland — a real, named field with no single dominant answer.

How to win it: A focused senior/assisted-living page for the Seattle-Portland corridor has real room to become part of this answer set.

“Who do owner's representatives recommend for affordable housing GCs in the Pacific Northwest?”

Why it's open: Walsh Construction Co. dominates this answer, repeatedly listed as a GC specializing in affordable, student, mixed-use, and special-needs housing.

How to win it: This is currently a one-firm answer — a real, named affordable-housing case study from Pavilion could contest it directly.

“General contractor for a mixed-use development in Boise or Eugene”

Why it's open: AI names McAlvain Construction, Engineered Structures Inc., Mark Guho Construction, Terrapin Construction Group, and Deacon Construction for Boise — a crowded, real field with no dominant leader.

How to win it: A direct page naming Boise/Eugene as served markets, matching the specificity AI is already citing competitors for.

“Construction firm experienced with modular multi-family housing in the western US”

Why it's open: AI names Guerdon Modular Buildings (Boise) as the strongest match, with Irontown Modular as a secondary name — a narrow, specific niche with only two real answers.

How to win it: If Pavilion has any modular experience, a direct page here faces very little real competition.

“Who builds workforce housing developments in Arizona?”

Why it's open: Greenlight Communities dominates this answer as Arizona's leading developer of attainable workforce housing.

How to win it: A real, named workforce-housing project in Arizona (if Pavilion has one) would directly contest a single-firm answer.
