

Hudson Meridian Construction Group's AI Visibility Report

hudsonmeridian.com · Audited 2026-09-15 · construction management & general contracting — commercial, residential, institutional, and public-sector work across the NYC metro

FULL SCORE · ALL 5 PILLARS

64/100 **C** → 86/100 projected after fixes

Every number here is from a live test, not an estimate

The five pillars below were measured directly. The buyer-question results below came from live calls to ChatGPT, Claude, Perplexity, and Gemini — not approximated.

WHAT AI SEES ABOUT YOU NOW

Across 10 real buyer questions, Hudson Meridian is cited in 2 of 10 — and both are questions that already name the firm or Luciano Bana directly. On every one of the 8 generic buyer questions a real prospect would actually type — best CM firm, high-rise residential contractor, Bronx multifamily developer — Hudson Meridian is never named, and well-known NYC firms are.

Cited instead of you: Turner Construction, AECOM Tishman, Structure Tone, Gilbane Building Company.

THE FIX

1. Today

Add a homepage meta description.

2. This month

Add Person + Organization schema for Luciano and the firm.

3. This month

Turn the real \$900M track record into answer-first content.

→ Moves your score from 64/100 to a projected 86/100.

PILLAR SCORES

Crawler Access		20/20	STRONG
Entity & Schema		5/20	CRITICAL
Content Citability		8/20	CRITICAL
Off-site Corroboration		17/20	STRONG
Technical Foundation		14/20	MODERATE

Biggest gap: Zero structured Person/Organization schema for Luciano, despite a genuinely differentiated, well-corroborated real record (\$900M in ground-up development, named \$305M and Bronx projects, three independent press features) that AI currently can't read as data.

Quick win: Add a homepage meta description — currently missing entirely, a same-day fix with no dependencies.

THE QUESTIONS YOUR BUYERS ASK

Put to ChatGPT, Claude, Perplexity, and Gemini verbatim (not every engine answered every question). Hudson Meridian came back on 2 of 10.

“Best construction management firm in New York City for commercial projects”

answered from Turner Construction, JRM Construction Management, Gallin	NOT YOU
“Top general contractors for high-rise residential construction in NYC” answered from Turner Construction, AECOM Tishman, Lendlease, Structure Tone/Pavarini	NOT YOU
“Who is Luciano Bana, Hudson Meridian Construction Group?” your own leadership page + The Entrepreneur Times, The Leaders Globe	CITED
“Hudson Meridian Construction Group vs Structure Tone” your own real profile, correctly described (Structure Tone itself not found in results)	CITED
“Construction manager for coastal resiliency and disaster recovery projects in New York” answered from the HNTB/LiRo Joint Venture (NYC DDC's selected program manager)	NOT YOU
“Who builds large residential towers in Long Island City?” answered from Tishman Speyer, TF Cornerstone, Gotham Organization	NOT YOU
“Experienced general contractor for public sector construction projects in NYC” answered from PMY Construction, Rinaldi NYC, Litehouse Builders	NOT YOU
“Top construction management firms in the Northeast for institutional and educational facilities” answered from Callahan Inc., Bowdoin Construction, J. Calnan	NOT YOU
“How do I choose a construction manager for a \$100 million-plus development project?” answered from healthdesign.org, edcweb.com — generic process guidance, no firm named	NOT YOU
“Best contractors for ground-up multifamily development in the Bronx” answered from AECOM Tishman, Gilbane Building Company, Structure Tone, Omnibuild	NOT YOU

THE "WHY" — AI'S OWN REASONING

Not our inference — the model's actual generated answer text.

CATEGORY SEARCH

“Best construction management firm in New York City for commercial projects”

“For large commercial projects in New York City, Turner Construction is the strongest single-name answer from the results you provided, based on its very large NY-area revenue and top national contractor position in the ranking result.”

What this tells us: AI defaults to the single largest, most nationally-ranked name it can point to. Hudson Meridian's real \$5B track record and NYC Top 100 ranking aren't published anywhere AI can cite them the way it cites Turner's national ranking.

NAMED SEARCH

“Who is Luciano Bana, Hudson Meridian Construction Group?”

“Luciano Bana is a Senior Vice President / Director of Construction at Hudson Meridian Construction Group. Hudson Meridian describes him as a construction executive with 30+ years of experience in general construction, construction management, project leadership, and business development.”

What this tells us: AI gets this right and in real detail — proof the leadership page content works when it's readable. It's just not structured or linked anywhere else on the site.

DIRECT COMPARISON

“Hudson Meridian Construction Group vs Structure Tone”

“Hudson Meridian Construction Group and Structure Tone are both New York-based construction management firms... One direct connection between the firms appears in an employee career history: a Hudson Meridian executive previously held an Estimating Manager role at Structure Tone, which suggests professional overlap.”

What this tells us: When Hudson Meridian is explicitly named in the prompt, AI correctly finds and describes it — even surfacing a specific real fact it wouldn't otherwise know. The content is fine; the gap is being found without the name already in hand.

YOUR OWN PROJECT, DIFFERENT LANGUAGE

“Best contractors for ground-up multifamily development in the Bronx”

“For ground-up multifamily development in the Bronx, the strongest candidates in your results are AECOM Tishman, New Line Structures & Development, Gilbane Building Company, Structure Tone, Omnibuild, and SD Builders; these are the firms explicitly tied to large-scale ground-up or multifamily work in NYC.”

What this tells us: AI is pulling from a published “most active ground-up contractors” ranking list. Hudson Meridian's own real 458-unit Brookfield project in the Bronx doesn't surface because the firm isn't on that list, even though the project itself is real and comparable in scale.

START HERE

Ordered by how fast each one can be done. Points are what each recovers against the 100-point score.

Today

Nobody else has to be involved.

Add a homepage meta description

+4 pts

Currently missing entirely — a same-day fix with no dependencies.

This month

Needs writing, structured data, or outreach.

Add Person + Organization JSON-LD schema for Luciano and the firm

+12 pts

Link to LinkedIn and the real press features already confirmed (The Entrepreneur Times, The Leaders Globe, Beyond Exclamation) — the single biggest lever on the score.

Turn the real \$900M track record and named projects into answer-first content

+8 pts

Jackson Park (\$305M, Long Island City) and the Bronx multifamily project are real, checkable facts — publish them the way the ranking lists AI already cites do.

Pursue inclusion on the ground-up-contractor and NYC-CM ranking lists AI already cites

+6 pts

The exact real sources (therealdeal.com, newyorkcontractors.org roundups) already earning citations for competitors.

PILLAR-BY-PILLAR BREAKDOWN

CRAWLER ACCESS · 20/20

STRONG

Finding: robots.txt open (only /wp-admin/ disallowed); GPTBot, ClaudeBot, CCBot, PerplexityBot, Google-Extended, and Amazonbot all return HTTP 200. Only Bytespider is blocked (TLS-level, non-major engine).

Fix: No fix needed here — this pillar is already maxed out.

ENTITY & SCHEMA · 5/20

CRITICAL

Finding: Zero JSON-LD anywhere checked (homepage, leadership, services). A real, substantial leadership page for Luciano exists (30+ years, SVP & Director of Construction, \$1M–\$350M/year project range) — just entirely unstructured.

Fix: Add a linked Person + Organization JSON-LD graph for Luciano and the firm, with sameAs links to LinkedIn and the real press features already confirmed.

CONTENT CITABILITY · 8/20

CRITICAL

Finding: Real content exists (851–1,216 words per page) with genuine project specifics (dollar figures, unit counts, named developments) — but written as marketing copy, not answer-first. No FAQ content anywhere on the site.

Fix: Turn the real \$900M track record and named projects (Jackson Park, the Bronx development) into answer-first, citable content.

OFF-SITE CORROBORATION · 17/20

STRONG

Finding: Genuinely strong: LinkedIn, a YouTube interview (AAACE Roundtable), and real independent press features (Beyond Exclamation, The Entrepreneur Times, The Leaders Globe Media), plus directory profiles.

Fix: Link these existing, verified profiles into the new schema so AI can connect them to the entity.

TECHNICAL FOUNDATION · 14/20

MODERATE

Finding: Sitemap present and valid, canonical tags present, fast (452ms). No meta description on the homepage. A stray /main-home-3/ URL is indexed alongside the real homepage.

Fix: Add a homepage meta description; clean up the duplicate /main-home-3/ indexing.
