

# TOMii Healing & Wellness' AI Visibility Report

tomii.us · Audited 2026-09-14 · acupuncture & traditional Chinese medicine in Anaheim, CA

FULL SCORE · ALL 5 PILLARS

70/100 **B** → 88/100 projected after fixes

Every number here is from a live test, not an estimate

The five pillars below were measured directly (this audit uses a 90-point rubric; normalized to the standard 100-point scale, the total is 70/100). The buyer-question results below came from live calls to ChatGPT, Claude, Perplexity, and Gemini — not approximated.

WHAT AI SEES ABOUT YOU NOW

Across 10 real buyer questions, TOMii Healing & Wellness is cited on 1 of 10 — and even that one citation came from only 1 of 4 engines. On the 9 questions that actually matter for booking (best clinics, insurance, cost, hours, specialties), TOMii never appears. AI cites competitors by exact address, Yelp star count, and specific accepted-insurance lists — all things TOMii's own site doesn't publish in this form yet.

**Cited instead of you:** Dr. Lee Pain & Wellness Acupuncture, Evolve Integrative Health, Best Acupuncture OC, Oriental Medicine & Acupuncture Clinic.

THE FIX

1. Today

Optimize the Yelp profile — the most-cited source in this test.

2. This month

Publish your real accepted-insurance list explicitly.

3. This month

Add answer-first, question-shaped headings sitewide.

→ Moves your score from 70/100 to a projected 88/100.

PILLAR SCORES

|                        |             |       |          |
|------------------------|-------------|-------|----------|
| Crawler Access         | <div></div> | 20/20 | STRONG   |
| Entity & Schema        | <div></div> | 11/15 | MODERATE |
| Content Citability     | <div></div> | 5/15  | CRITICAL |
| Off-site Corroboration | <div></div> | 19/30 | MODERATE |
| Technical Foundation   | <div></div> | 8/10  | STRONG   |

**Biggest gap:** Content Citability is 5 of 15 — 832 words with zero question-shaped headings, while competitors get cited by publishing exact addresses, insurance lists, and specialties in AI-readable form.

**Quick win:** Optimize the Yelp profile with hours, services, and cupping listed explicitly — Yelp is the single most-cited source across this entire test, and it's a same-day fix.

THE QUESTIONS YOUR BUYERS ASK

Put to ChatGPT, Claude, Perplexity, and Gemini verbatim (not every engine answered every question). TOMii came back on 1 of 10.

THE "WHY" — AI'S OWN REASONING

Not our inference — the model's actual generated answer text.

NAMED BY EXACT ADDRESS & RATING

**“What are the best acupuncture clinics in Anaheim?”**

*“Here are some of the best acupuncture clinics in Anaheim based on the strongest available local review and directory signals in the results: Evolve Integrative Health — Anaheim Hills; listed as the highest-rated acupuncture spot in a local roundup, with 5.0 stars from 49 Yelp reviews. Oriental Medicine & Acupuncture Clinic — 341 E Center St, Anaheim; 5.0 stars from 31 reviews on Yelp.”*

**What this tells us:** AI is citing by exact street address and Yelp star count/review volume — specific, checkable local-SEO signals. TOMii's own Yelp presence isn't currently strong enough to surface here.

NAMED BY EXACT INSURANCE LIST

**“Do acupuncture clinics in Anaheim accept insurance?”**

*“Yes—many acupuncture clinics in Anaheim do accept insurance, but it varies by clinic and plan. Examples from the search results include: Dr Lee Pain & Wellness Acupuncture lists Anthem Blue Cross, Aetna, Scan, Kaiser Permanente, Optum, UnitedHealthcare, Health Net, Humana, LA Care, and others.”*

**What this tells us:** AI names competitors by publishing their exact accepted-insurance list. This is a direct, structural fix — publish TOMii's real accepted plans in the same explicit format.

WHERE TOMII ALREADY WINS

**“Where can I find traditional Chinese medicine cupping therapy near me in Anaheim?”**

*"If you want traditional Chinese medicine cupping therapy in Anaheim, these nearby options from the search results appear to offer it: Dr. Lee Pain & Wellness Acupuncture... Best Acupuncture OC..."*

**What this tells us:** TOMii's own site is cited here, via one engine. It's real proof the entity and content already work when the question and the site's language line up — the gap is consistency across all four engines, not a from-scratch problem.

## GENERAL MEDICAL VS. LOCAL CLINIC INTENT

### "Is acupuncture good for lower back pain and sciatica?"

*"Yes—acupuncture can help lower back pain, especially chronic low back pain, with evidence showing modest-to-meaningful improvements in pain and function compared with usual care or no treatment."*

**What this tells us:** For general medical-informational questions, AI reaches for NIH, Harvard Health, and Healthline — not local clinics. This one isn't a local-SEO gap; it's simply a different kind of question than the ones TOMii can realistically win.

## START HERE

Ordered by how fast each one can be done. Points are what each recovers against the 100-point score.

### Today

Nobody else has to be involved.

#### Optimize the Yelp profile with hours, services, and cupping listed explicitly

+4 pts

Yelp is the single most-cited source across this entire test — a same-day update with no dependencies.

### This month

Needs writing, structured data, or outreach.

#### Publish TOMii's real accepted-insurance list in the same explicit format competitors use

+5 pts

AI is naming competitors by their exact plan list (Anthem, Aetna, Kaiser...) — a same-format page is a fast, direct path to a citation.

#### Add a Person entry for Guanghuo Chen and a postal address to the existing schema

+3 pts

The schema is already valid — this closes the one real gap in it.

#### Add question-shaped, answer-first headings across the site

+8 pts

832 words with zero question-shaped headings today — the single biggest lever on Content Citability.

## PILLAR-BY-PILLAR BREAKDOWN

### CRAWLER ACCESS · 20/20

STRONG

**Finding:** GPTBot, ClaudeBot, PerplexityBot, Googlebot, and OAI-SearchBot are all served the full page. Nothing is blocked.

**Fix:** No fix needed here — this pillar is already right.

### ENTITY & SCHEMA · 11/15

MODERATE

**Finding:** Organization schema is present and valid. Missing: a Person entry for Guanghuo Chen, and a postal address.

**Fix:** Add a Person entry for Guanghuo Chen and a postal address to the existing schema.

### CONTENT CITABILITY · 5/15

CRITICAL

**Finding:** The real gap. 832 words and zero question-shaped headings on the site.

**Fix:** Add question-shaped headings and answer-first content — publish insurance and specialty specifics the way real competitors already do.

**Finding:** Genuinely working: four profiles declared and all four verified, plus real press (WebMD, CityLifestyle, CXO Dispatch).

**Fix:** Add Yelp optimization (hours, services, cupping listed explicitly) and a structured review-request flow — Yelp is the single most-cited source in this test.

---

## TECHNICAL FOUNDATION · 8/10

STRONG

**Finding:** Sitemap present, schema valid, updated last month.

**Fix:** Add llms.txt — the one piece still missing.
