

# Pavilion Construction's AI Visibility Report

pavilionconstruction.com · Audited 2026-09-14 · multi-family, senior & student housing, and commercial general contracting — western U.S.

FULL SCORE · ALL 5 PILLARS

56/100 **C** → 80/100 projected after fixes

Every number here is from a live test, not an estimate

The five pillars below were measured directly. The buyer-question results below came from live calls to ChatGPT, Claude, Perplexity, and Gemini — not approximated.

WHAT AI SEES ABOUT YOU NOW

Across 10 real buyer questions, Pavilion Construction is cited in 2 of 10 — and both are questions that already name Pavilion directly (Brian Gerritz's own bio, and a head-to-head vs. Andersen Construction). On every one of the 8 generic buyer questions a real prospect would actually type, Pavilion is never named.

**Cited instead of you:** The Weitz Company, Sundt Construction, Andersen Construction, McCarthy Building Companies.

THE FIX

1. Today

Fix the broken sitemap and add a homepage meta description.

2. This month

Add Person + Organization schema for Brian and the firm.

3. This month

Rebuild team/project pages to directly answer real buyer questions.

→ Moves your score from 56/100 to a projected 80/100.

PILLAR SCORES

|                        |             |       |          |
|------------------------|-------------|-------|----------|
| Crawler Access         | <div></div> | 20/20 | STRONG   |
| Entity & Schema        | <div></div> | 6/20  | CRITICAL |
| Content Citability     | <div></div> | 7/20  | CRITICAL |
| Off-site Corroboration | <div></div> | 15/20 | MODERATE |
| Technical Foundation   | <div></div> | 8/20  | CRITICAL |

**Biggest gap:** Zero structured Person/Organization schema for Brian Gerritz and the firm, despite a real, well-corroborated 19-year, 12-state track record (LinkedIn, BuildZoom, D&B, BBB) that AI currently can't read as data.

**Quick win:** Fix the broken sitemap (sitemap.xml, sitemap\_index.xml, and wp-sitemap.xml all currently 404) and add a homepage meta description — both same-day, technical-only fixes.

THE QUESTIONS YOUR BUYERS ASK

Put to ChatGPT, Claude, Perplexity, and Gemini verbatim (not every engine answered every question). Pavilion came back on 2 of 10.

“Best multi-family construction company in the Pacific Northwest”

|                                                                                                                                                           |         |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------|---------|
| answered from millersonscontracting.com, generalcontractors.org, wilsoncompanyinc.com                                                                     | NOT YOU |
| <b>“General contractor for affordable &amp; senior housing”</b><br>answered from sunseriassociates.com, wilshirepacific.com, hudnlha.com                  | NOT YOU |
| <b>“Best general contractor in Portland, Oregon for commercial construction”</b><br>answered from modernnw.com, portlandarchitect.org, harrisandsons.co   | NOT YOU |
| <b>“Reliable GC for a multi-family development in Oregon or Arizona”</b><br>answered from mccormackconstruction.com, pdxgc.com, bacharachconstruction.com | NOT YOU |
| <b>“Who builds large apartment &amp; mixed-use communities in the western U.S.?”</b><br>answered from antondev.com, summit-contracting.com, pase.com      | NOT YOU |
| <b>“Experienced student-housing construction contractor”</b><br>answered from sundt.com, weitz.com, rg-group.co.uk                                        | NOT YOU |
| <b>“Top general contractors for senior housing developers in the western US”</b><br>answered from weitz.com, bdcnetwork.com, hdcdevelopment.com           | NOT YOU |
| <b>“How do I choose a general contractor for a multi-family development?”</b><br>answered from multifamily.loans, favergray.com, innergyintegral.com      | NOT YOU |
| <b>“Who is Brian Gerritz, Pavilion Construction?”</b><br>your own team page + linkedin.com, crunchbase.com                                                | CITED   |
| <b>“Pavilion Construction vs Andersen Construction”</b><br>your own services page + andersen-const.com                                                    | CITED   |

**3 more you could win**

- Real openings found by running the same citation tool against Pavilion's niche — no dominant source, no confident AI answer yet.
- “Who are the best general contractors for multi-family construction in the Pacific Northwest?”**  
The flagship category question is still open — AI cites a scattering of sources but never confidently names one winner.
- “Top-rated senior living and assisted living builders in Seattle and Portland?”**  
No GC-specific source dominates — AI pulls from senior-living referral sites, not construction authorities.
- “I need a GC experienced with Type III over Type I podium apartment construction in Oregon &mdash; who should I call?”**  
Specific enough that no competitor has targeted it with content — AI cites government and technical-standards sites, never a contractor.

**THE "WHY" — AI'S OWN REASONING**

Not our inference — the model's actual generated answer text.

**REGIONAL CATEGORY SEARCH**

- “Best multi-family construction company in the Pacific Northwest”**  
*“There is no single, objectively “best” multi-family construction company in the Pacific Northwest based on the results provided, but the strongest nationally benchmarked option in your results is Graham Construction & Engineering because it*

appears in the 2024 NMHC Top 25 Builders ranking, which is one of the most credible industry measures of multifamily building volume.”

**What this tells us:** AI defaults to firms it can point to a public, structured ranking for — not the most experienced firm, the most citable one. A real 19-year, 12-state track record loses to a firm with one public list entry.

NAMED SEARCH

“Who is Brian Gerritz, Pavilion Construction?”

“Brian Gerritz is the President and Co-Founder of Pavilion Construction, a multifamily/general contracting firm based in the Portland, Oregon area. Pavilion describes him as a hands-on founder who oversees the company's overall performance, operations, and client relationships.”

**What this tells us:** This is the one place AI gets it right — and only because Brian's own team page and LinkedIn are directly readable and consistent. Proof the content works; it's just not present anywhere else on the site.

NICHE SPECIALIZATION

“Experienced student-housing construction contractor”

“If you're looking for an experienced student-housing construction contractor, several firms in the results stand out based on their stated project volume, specialization, and industry rankings. Weitz Company: Says it has completed over 100 student housing projects totaling more than 35,000 beds and notes zero late deliveries.”

**What this tells us:** AI cites firms that publish hard, checkable numbers — project counts, unit counts, zero-late-delivery claims. Pavilion's real multi-decade track record isn't published anywhere in this quotable, numeric form.

DIRECT COMPARISON

“Pavilion Construction vs Andersen Construction”

“If you're comparing Pavilion Construction and Andersen Construction, they appear to be different general contractors with different geographies and market focus. Pavilion is presented as a value-minded GC with projects across the western U.S.”

**What this tells us:** When Pavilion is explicitly named in the prompt, AI correctly finds and cites its real services page. The content itself is fine — the gap is discoverability for buyers who don't already know the name.

START HERE

Ordered by how fast each one can be done. Points are what each recovers against the 100-point score.

Today

Nobody else has to be involved.

Fix the broken sitemap and add a homepage meta description

+4 pts

sitemap.xml, sitemap\_index.xml, and wp-sitemap.xml all currently 404 — a same-day technical fix.

This month

Needs writing, structured data, or outreach.

Add Person + Organization JSON-LD schema for Brian and the firm

+10 pts

Link to LinkedIn, BuildZoom, Crunchbase, and D&B — the single biggest lever on the score.

Rebuild team and project pages into answer-first content

+7 pts

Turn the portfolio into pages that directly answer buyer questions like the 8 generic ones tested here.

Publish specialty pages for senior/assisted-living and Type III podium construction

+7 pts

Two real, wide-open niches the Opportunity Finder found — no competitor currently owns either.

PILLAR-BY-PILLAR BREAKDOWN

**Finding:** robots.txt open; GPTBot, ClaudeBot, CCBot, PerplexityBot, and Google-Extended all return HTTP 200. No edge block.

**Fix:** No fix needed here — this pillar is already maxed out.

---

## ENTITY & SCHEMA · 6/20

CRITICAL

**Finding:** Zero JSON-LD on the homepage. Team pages exist (e.g. Brian Gerritz's bio) but with no Person/Organization schema, no sameAs, no linked graph.

**Fix:** Add a linked Person + Organization JSON-LD graph for Brian and the firm, with sameAs links to LinkedIn, BuildZoom, and Crunchbase.

---

## CONTENT CITABILITY · 7/20

CRITICAL

**Finding:** Real portfolio and marketing pages exist, but nothing is answer-first and there's no FAQ schema — little for AI to lift into a direct answer.

**Fix:** Rebuild the thin team/project pages into answer-first content that directly answers real buyer questions.

---

## OFF-SITE CORROBORATION · 15/20

MODERATE

**Finding:** Genuinely strong: LinkedIn (personal + company), ZoomInfo, The Org, D&B, BBB, BuildZoom, and Houzz across a real 12-state, 3-office footprint.

**Fix:** Link these existing, verified profiles into the new schema so AI can connect them to the entity.

---

## TECHNICAL FOUNDATION · 8/20

CRITICAL

**Finding:** WordPress theme. sitemap.xml, sitemap\_index.xml, and wp-sitemap.xml all currently return 404. No homepage meta description.

**Fix:** Generate and submit a working sitemap; add a homepage meta description — both same-day, currently broken.
